L560 Series

Federal Signal Vama presents the compact and rechargeable flashlight L560, designed to make the security and surveillance professionals' jobs easier, providing a great luminosity and reliability in a small size and weight, making it the perfect complement to your daily work.

Has a great versatility, as the flashlight allows to adapt numerous accessories, it has an adjustable focus and 3 working modes (high intensity, low intensity and flashing mode). The flashlight L560 has a light autonomy of more than 8 hours.

COMPACT and LIGHT-WEIGHT

The L560 only measures 210 mm and weighs 437 gr.

The L560 flashlight provides 3 different functions: high intensity, low intensity and flashing mode.

Adjustable focus

Solution for each application

COMPACT AND LIGHT-WEIGHT: Thanks to its weight of only 437 gr. and to its small dimensions, the flashlight L560 is very easy to use.

AUTONOMY: The low consumption LED of the L560 flashlight guarantees a light autonomy up to 8 hours.

3 WORKING MODES: The flashlight provides 3 different functions, to adapt it according to each need: High intensity, Low intensity and Flashing mode.

ADJUSTABLE FOCUS: The flashlight L560 allows to adjust the light beam according to the object or scene to be focused.

DROP AND WATER PROOF: It is designed with great resistant materials avoiding that the flashlight gets damaged due to falls or impacts. It is also dust and water resistant (IP55).

BETTER GRIP AND ANTI-SLIP: Its cylindrical aluminium body provides a great resistance and better grip. The flashlight head is made of wrinkled rubber, which avoids that it rolls while leaving in a plain surface.

POLICE LINE DO NOT CROSS

L500 Series accessories range
